ABOUT THE INSTITUTE

The Institute of Economic Growth (IEG) is an autonomous, multidisciplinary centre for advanced research and training. Widely recognised as a centre of excellence, it is one of India's leading academic institutions in the fields of economic and social development. Established in 1952, it consists of a faculty of 30 social scientists (economists, demographers and sociologists) and a large body of supporting research staff, focussing on emerging and often cutting-edge areas of social and policy concern. Many past and current faculty members are internationally renowned and award-winning scholars.

The Institute's research falls into nine broad themes:

- agriculture and rural development;
- environmental and natural resource economics;
- globalisation and trade;
- health economics and policy;
- industry and development;
- labour and welfare;
- macroeconomic analysis and policy;
- population and human resource development; and
- social change and social structure.

In addition, the Institute organises regular training programmes for the trainee officers of the Indian Economic Service (IES) and occasional courses for officers of the Indian Statistical Service and National Bank for Agriculture and Rural Development (NABARD) and university teachers. The Institute's faculty members also supervise doctoral students from India and abroad, provide regular policy inputs and engage with the government, civil society and international organisations. Over the years, IEG has hosted many renowned international scholars, including Nobel Laureates Elinor Ostrom and Amartya Sen, and James Heckman, and others such as Yujiro Hayami, Jan Breman, Ronald Herring, Nancy Folbre, Diane Elson and Nicholas Stern.

The Institute's major goals, as spelt out in its Memorandum of Association, are:

- to serve as an advanced centre for research and training in economics and allied subjects;
- to establish a fruitful exchange with distinguished scholars and learned bodies in India and abroad;
- to promote cooperative research within its own faculty and collaborative research with other institutions in India and abroad;
- to organise training courses and hold seminars for the benefit of the social science community and the development of the society;
- to undertake the publication of its research studies and disseminate them; and
- to conduct ad hoc investigation at the request of governments, organisations of employers, workers and peasants or of other bodies or persons interested in promoting a study of economic questions.

The faculty, board of directors and trustees of the IEG, which was founded by eminent economist V.K.R.V. Rao, have included and continue to attract distinguished intellectuals and policymakers, including V.T. Krishnamachari, C.D. Deshmukh, P.N. Dhar, A.M. Khusro, Dharm Narain, C. Rangarajan, C.H. Hanumantha Rao, T.N. Madan, P.C. Joshi, Bimal Jalan, Arjun Sengupta and Nitin Desai. Several former faculty members have served as members of the erstwhile Planning Commission or on the Prime Minister's Panel of Economic Advisors. Manmohan Singh has had a long association with the Institute, initially as Chairman of the Board (1977-82) and since 1992 as President of the IEG Society. Tarun Das is Chairman of the Board of Governors of the IEG and Manoj Panda is the Director.

FROM THE DIRECTOR'S DESK: HIGHLIGHTS OF 2016-17

In the year 2016-17, the Institute of Economic Growth (IEG) continued its dedicated efforts in research and training in the field of economic growth and social development. The research agenda of the Institute is currently grouped into nine thematic areas covering various issues in economic growth and social justice. The work of an individual faculty falls into one or more of these themes. The Institute also carries out research studies to provide support to policymakers in India. Several faculty members were actively engaged in policymaking as members of various committees and working groups during the year.

The dissemination of research output is carried out through publications, conferences and seminars. As this Report details, the Institute's faculty of about 25 published more than 60 papers in international and national journals, and edited books during the year 2016-17. Several faculty members are members of editorial boards of international and national journals. A number of study reports and 8 working papers were completed during the year. The faculty presented several research papers in various international and national seminars and conferences in India and abroad and delivered guest lectures in other academic institutions.

IEG also brings out the tri-annual journal *Contributions to Indian Sociology* published by SAGE Publications and a *Quarterly Monitor* that analyses trends and forecasts of major macroeconomic

variables for India. We are thankful to the new Editors, Book Reviews Editors and members of the reconstituted Editorial Advisers.

The IES Section continued its specialised teaching and training of the Indian Economic Service trainee officers and mid-career officers in economic techniques and policy analysis. Other training programmes by the IEG faculty during the year included one on Rural Livelihood and Well-being, another on Indian Social Sciences and the Vernacular disciplinary Histories and Politics of Knowledge. A training programme on economics for the trainee officers of the Indian Civil Accounts Service Officers was also organised during 2016-17. Faculty members also coordinated several workshops, seminars and conferences.

The year 2016-17 saw our growing links with researchers elsewhere in India and abroad through collaborative studies and conferences. The Institute is a partner organisation in the International Centre of Advanced Studies (ICAS) which is based on a cooperative agreement between three Indian and four German partner institutions. Funded by the German Federal Government, ICAS has provision for fellowships in selected themes and supports seminars and conferences. During the year, IEG hosted 8 fellows selected by the ICAS from India and three European countries.

Not being part of the UGC system, IEG does not award its own degree, but some faculty members supervise M.Phil. and Ph.D. scholars. One scholar received the Ph.D. degree during 2016-17. A need to conduct a Ph.D. programme with affiliation to a university has been felt over the years. IEG has also collaborated with the Centre for Development Economics to jointly host a post-doctoral position.

The Career Advancement Scheme for faculty members was introduced as per the guidelines given by the Indian Council of Social Science Research and implemented during 2016. Several faculty members benefitted themselves from the Scheme.

Mr. Nitin Desai's term as Chairman of the Board of Governors ended in December 2016. With his vast experience in the United Nations and the Government of India, Desai provided valuable policy guidance to the Institute during the last six years. The new Chairman Mr. Tarun Das brings with him his vast experience in Indian industry.

Dr. Mohan Bera and Dr. Rashmi Rastogi joined as Sir Ratan Tata Fellows. Five ICSSR doctoral fellows also joined the Institute during 2016-17. We welcome these young scholars. Dr. Thiagu Ranganathan left the Institute to join IIM, Nagpur. In the administrative section, Mr. Arvind Verma joined as Administrative Officer and Bikram Sharma as Editorial Associate.

Professor Bina Agrawal superannuated during the year after a long career of about 35 years at the Institute which included Directorship for a term. Her work on resource management with specific focus on gender dimension has been well recognised internationally. She has been awarded the Order of Agricultural Merit (Officer) from the Government of France.

IEG continues to be recognised among the world's top think tanks by the University of Pennsylvania's Think Tanks and Civil Societies Program (TTCSP) in the area of international economic policy research, and among the top across all subjects in a regional category that included China, Japan and Republic of Korea. IEG has been ranked high in the TTCSP list of top health policy think tanks around the world for the last three years.

The Institute's library has grown over time with a collection of over 146 thousand books and documents. The library provides access to many online resources, journals and data base through the University of Delhi's LAN system. The IEG campus including the residential quarters has been connected with wi-fi systems. IEG has over 1000 registered followers on Twitter and Facebook and nearly 10,000 followers on You Tube.

This report details the various activities of the Institute during 2016-17. In the coming years, the Institute will continue to contribute to the nation building process by conducting research and training as per its mandate.

Manoj Panda

RESEARCH ACTIVITIES : BRIEF OVERVIEW

The main thrust of IEG's research is on the development of India's economy and society. Faculty members work on both conceptual and empirical issues with strong policy relevance. The research programme is revised from time to time to incorporate new areas of interest. Many faculty members work on more than one theme, as below.

Research Themes And Faculty Interests

Research themes (alphabetical)	Faculty working on a given theme(s)
1. Agriculture and Rural Development	Bina Agarwal (Retired on 30 September 2016) Pradeep Agrawal* Amita Baviskar Purnamita Dasgupta Nilabja Ghosh Brajesh Jha Anita Kumari C.S.C. Sekhar Amarnath Tripathi
2. Environmental and Natural Resource Economics	Bina Agarwal (Retired on 30 September 2016) Amita Baviskar Saudamini Das Purnamita Dasgupta Vikram Dayal Nilabja Ghosh Manoj Panda Basanta K. Pradhan Rashmi Rastogi Amarnath Tripathi
3. Globalisation and Trade	Pradeep Agrawal Nilabja Ghosh Bishwanath Goldar Brajesh Jha Mohd. Hussain Kunroo Rashmi Rastogi Pravakar Sahoo C.S.C. Sekhar

*Prof. Pradeep Agrawal passed away on 28 May 2017.

Training Programmes

Since its inception, IEG has functioned as a centre for specialised teaching and training.

IES Training programme

Since 1968, the Indian Economic Service (IES) Section of the Institute of Economic Growth has been organising training programmes for IES officers on behalf of the Department of Economic Affairs, Ministry of Finance, Government of India. Training in economic policy and planning is provided to newly recruited IES officer trainees, on a regular basis, and to in-service officers, from time to time. The objective of the training programmes is to enrich the officers' understanding of economic issues and to strengthen their capacity to make effective contributions to policymaking.

During 2016-17, the IEG conducted three training programmes for the IES.

1. Phase-I of the induction-level training programme for the 13 IES Officer Trainees of Batch 2015 started from January 4, 2016 and continued till May 13, 2016. The valedictory function for Phase-I was held at IEG on May 13, 2016. Mala Dutt, Economic Advisor, Economic Affairs, Ministry of Finance, was the Chief Guest of this function. The IEG also organised Phase-II of the training programme for this batch from July 25, 2016 to March 31, 2017. During Phase-II of the training, officer trainees underwent training by different external organisations, such as JPAL and TIES. As a part of country specialisation, retired IES Officers, Anil Bisen and Arvind Kumar, lectured them about the other economies of the world. Senior Officers (M.C. Singhi (Retd.), Arvind Kumar, Daljeet Singh, B.S. Bhandari, Arvinder Singh Sachdeva, K.V. Pratap, Archana S Mathur, etc.) also delivered lectures on regulatory economics.
2. A four-week induction-level training programme was conducted for 20 feeder post holders promoted to Grade IV (Junior Time Scale) of the IES from August 16 to September 9, 2016. Gopal Singh Negi, Economic Advisor, Economic Affairs, Ministry of Finance, addressed the officers at the inaugural function of the training programme. The valedictory function was held on September 09, 2016. Mala Dutt, Economic Advisor, Economic Affairs, Ministry of Finance, was the Chief Guest at the Valedictory function of the training programme.
3. The Phase-I induction-level training programme for the 15 IES Officer Trainees of Batch 2016 started at IEG on January 2, 2017 and concluded on May 19, 2017. Arvind Subramanian, Chief Economic Advisor (CEA), Ministry of Finance, delivered the inaugural address.

The Indian Economic Service Unit of the Institute of Economic Growth is actively involved in research on issues of economic policy and development besides imparting training to IES Officers. In 2016-17, the faculty in the IES unit of the Institute of Economic Growth were active in research and had peer-reviewed publications in key areas of economic policy—labour and employment, financial access, trade facilitation, manufacturing, competition, ecological economics, data analysis, etc.

The IES unit draws on its own research in the areas of economic policy while imparting training to Indian Economic Service members; its continuous engagement with applied research of direct relevance to economic policy enables it to provide training that is relevant and current to the Indian Economic Service officers. The members of the IES unit use their expertise on data and institutional arrangements, and their familiarity with the latest research techniques and software, to inform their teaching. In addition, the following training programmes were held at the Institute:

'Rural Livelihood and Well Being' on May 03–07, 2016, organised by Thiagu Ranganathan at IEG.

'Longitudinal Ageing Study in India (LASI): Training of Researchers' from January 31, 2017 to March 05, 2017, organised by Suresh Sharma.

Training of Indian Civil Accounts Service Officers (ICAS) from March 20–24, 2017, organised by N. Chandrasekhara Rao.

Fellowships at IEG

The Institute hosts several fellowship programmes:

The Sir Ratan Tata Fellowship programme was instituted in 2000. This provides research scholars in India an opportunity to undertake post-doctoral research. One of the fellowships is at the assistant professor level (for two years and extendable for a third year) and another at the associate professor/professor level (for one year). Since its inception, the Institute has hosted 12 Fellows. During their tenure, many Fellows have written papers and organised workshops; some have prepared and published book manuscripts.

ICSSR Doctoral Fellowships: IEG offers six PhD Fellowships every year in economics and sociology, instituted by the Indian Council of Social Science Research.

Journals and Periodicals

The Institute brings out a major journal *Contributions to Indian Sociology (CIS)* and a periodical *Quarterly Monitor*.

Contributions to Indian Sociology, the premier journal of sociology and cultural anthropology in South Asia, is sponsored by IEG and published thrice a year by SAGE Publications. *Contributions* was founded by Louis Dumont and David Pocock in 1957 but ceased publication in 1966. A new series was initiated in 1967 by T.N. Madan with the support of an international group of scholars including Louis Dumont, A.C. Mayer, Milton Singer and M.N. Srinivas.

This peer-reviewed journal has encouraged and fostered cutting-edge scholarship on South Asian societies and cultures over the past 50 years. Its pages feature articles and comments by leading academics as well as research papers by young postdoctoral scholars. It has brought out several special issues on new and significant themes, which have been subsequently republished as independent books. *Contributions* is the only sociology journal ranked among the top hundred worldwide that is published from South Asia.

CIS publishes articles on all countries of South Asia, the South Asian diaspora as well as on comparative studies related to the region. The journal favours articles in which theory and data are mutually related, and accommodates a diversity of theoretical approaches and methods.

The *Quarterly Monitor* is a periodical brought out by the Development Planning Centre (DPC) of the IEG. It analyses macroeconomic developments and reports the forecast of some key macro variables on the basis of quarterly data. The variables are inflation based on both WPI and CPI, sectoral GDP, trade deficit, current account deficit, money supply, exchange rate, etc.

IEG as a partner of ICAS: MP

The *M.S. Merian – R. Tagore International Centre of Advanced Studies in the Humanities and Social Sciences: Metamorphoses of the Political: Comparative Perspectives on the Long Twentieth Century (ICAS:MP)* is based on a cooperative agreement between three Indian and four German partner institutions. The Indian partners include the Institute of Economic Growth (IEG, Delhi), the Centre for the Study of Developing Societies (CSDS, Delhi) and the Centre for Studies in Social Sciences Calcutta (CSSSC, Kolkata). The German partners include the Max Weber Stiftung (MWS), academically represented by the German Historical Institute London (GHIL), the University of Göttingen (Centre for Modern Indian Studies), the University of Erfurt (Max-Weber-Kolleg) and the University of Würzburg (Centre for Modern India).

ICAS:MP has interconnecting components, and together they serve to establish ICAS:MP both as an International Centre of Advanced Studies and as an active and internationally visible research centre based primarily on Indo-German academic cooperation. It offers, first, an extensive fellowship programme for internationally renowned senior scholars as well as for a smaller number of outstanding post-doctoral fellows. Secondly, in order to ensure that these fellows will be integrated into a vibrant research environment, a modular structure has been developed. Up to six Thematic Modules (TM) organise international conferences, conduct their own collaborative research, integrate fellows into their specific networks and offer follow-up fellowships to some of the German research institutions involved in the Thematic Modules. IEG has been a major partner in establishing the above-mentioned components. The fellows have been accommodated at IEG as well as integrated in the academic environment of IEG.

The research fellowship programme that is central to the success of ICAS:MP was initiated in autumn 2015. The selected fellows included four men and four women, of which five were Indian citizens (residing in India or abroad) and three were citizens of European countries (Italy, Spain, and UK). All fellowships commenced between February and September 2016 and the fellows were hosted at IEG. For strengthening academic exchange with IEG/CSDS's faculties, a Fellows' Lecture Series was started in August 2016. During these lectures, the fellows introduced their research projects to a wider audience at the two partner institutes.

Apart from the cooperation in hosting these fellows, IEG also helped ICAS:MP in organising workshops and business meetings at IEG. The following meetings were held at IEG during 2016:

- TM4 Workshop on “Semantics of Inequality and Plurality and their political consequences” (24–26 February 2016).
- TM5 Workshop on “Relating Gender: The Invocation of Culture” (3–4 October 2016).
- TM6 Inaugural Workshop on “The Political Economy of Growth and Distribution” (5 October 2016).

For setting up an additional Thematic Module on Political Economy, a network tour to Germany was organised by ICAS-MP for two IEG faculty to meet with colleagues at the universities of Göttingen and Erfurt. This allowed for having an initial round of discussions on how to focus the research that will be carried out by this module. IEG also provided support to ICAS-related activities by the India-based Director during 2016-17.

✎ AMITA BAVISKAR

'Demolishing Delhi: Landscapes and Livelihoods in Liberalizing India', self-initiated, April 2006.

This study focuses on changing landscapes and livelihoods in Delhi at the intersection of three sets of inter-related processes: (i) economic liberalization, (ii) the growth of the middle classes, and (iii) the rise of an activist judiciary. It analyzes these changes in the city's economic, social and political life as a context for the phenomenon of 'bourgeois environmentalism', a cultural sensibility that drives collective action in pursuit of urban order, safety and health. It examines how 'bourgeois environmentalism' narrows the discourse of 'public interest' and citizenship in Delhi, and how excluded social groups strive to escape its constraining effects.

Food Practices in Western India: Environment, Production and Consumption', self-initiated, September 2008.

The multiple routes of Indian modernity can be traced through shifts in the modes of producing and consuming food. This study attempts to analyse some of these shifts through a selective discussion of changing food practices in post-Independence India. It locates these changes in the context of the political economy of agriculture since the Green Revolution which brought about a profound re-articulation between food producers and consumers. It delineates the widening circuits of food as a commodity form within the home and outside, spanned by the growth of processed foods and the practice of 'eating out'. The study juxtaposes changes in affluent and middle-class consumption with the persistence of hunger and malnutrition among the poor.

(with C.S.C. Sekhar and Purnamita Dasgupta) 'Risks, Returns and Resilience: A Multi-Disciplinary Approach to Climate Change and Agriculture', Indian Council for Social Science Research (ICSSR), initiated on March 2017, likely date of completion February, 2019.

Dryland agriculture in India has been marked by a severe crisis of reproduction during the last two decades. In an already precarious scenario, climate change adds another dimension of uncertainty, which farmers, as well as policymakers, are struggling to factor into their strategies for future well-being. What are the mechanisms available to the farmer for coping with this uncertainty? What are the resources that s/he can command – natural, financial, political and social? Are the pathways of coping different in different regions? How varied are risks and returns in different states? This study attempts to address these questions through a multi-disciplinary approach to understand this complex issue.

☞ MOHAN KUMAR BERA, JR. SRT FELLOW

On-going Project

'Collective Efforts of People to Reduce Natural Disasters in Sundarban Islands'.

People from chronic flood affected areas in Sundarban Islands do not immediately leave the place because they have seen the difficulties of their neighbours, friends and relatives those who have become the environmental refugee. Therefore, they take efforts to avoid the impact of floods. They understand that individual efforts are not sufficient to avoid the impacts. The perception of disaster risk influences the affected villagers to involve in collective activities to reduce the impacts of floods. The collective activities also help them to negotiate with the government to meet their demand in reducing the impacts.

☞ T.A. BHAVANI

'Review of Indian Manufacturing Sector Performance and Constraints'.

Despite inheriting reasonable industrial base at the time of independence and adopting industry-based development strategy, India failed to have successful industrialization and to have adequate diversification of its production structure away from agriculture towards industry. Rather, it showed premature and rapid diversification to services. Why Indian industry especially manufacturing remained under-sized and under-performed? I propose to do a critical review of the existing literature on important aspects of manufacturing such as size structure, composition, employment, and informal sector in an attempt to look for answers for the failure of Indian industry specifically manufacturing sector.

(with Anita Kumari, M. Rajeshwor) 'Forecasting Agricultural Output using Space, Agro-meteorology and Land based Observation (FASAL)', funded by Ministry of Agriculture, Government of India, initiated on April 2006, likely date of completion 2018.

The FASAL project provides early forecasts of crop output using econometric modeling to the Ministry of Agriculture every year for finalizing official advance and final estimates published by Government of India. Four forecasts are provided, two (F0 and F1) each for Kharif and Rabi for major crops at the state level and projected at the all India level.

'Emerging Technologies for Rice Cultivation including SRI', self-initiated (likely to be sponsored), 2015- 2017.

The paper is a review of rice farming practices, sustainable techniques and their suitability in Indian conditions especially eastern India. It is an invited paper planned to be a chapter in a book "System of Rice Intensification for Increased Productivity and Ecological Security" by G.B. Pant Social Science Institute, University of Allahabad, Book (eds.) K. N. Bhatt and P. Bhargava with Keynote paper by Norman T. Uphoff Professor Emeritus of Government and International Agriculture, Cornell Institute for Public Affairs (CIPA). The paper draws and extends on the work done for ICIMOD. Special focus of the proposal is on SRI in Bihar.

'Land Use Changes from Agriculture to Urban Landscape, 2016-17', FASAL team (in process, self-initiated).

This short study examines the land use and cropping pattern changes taking place in national capital region which is becoming urbanised overtime. Both secondary data and satellite maps created under FASAL are used.

'Extent of Food Processing in India, 2017'.

This is an extension of the earlier work that is still discussed with Ministry (MoFPI). This is a study of methods.

'Understanding the Dynamics in the Pulses Sector in India' (FASAL team).

This is a statewise study of production dynamics and sources of growth in contemporary times when there is official promotion of these crops. We also analyse the behavior of prices at wholesale and retail market levels to mark sharp departures. This is an outcome of extended work done at the behest of Ministry of Agriculture & Farmer Welfare and Ministry of Consumer Affairs.

✎ INDRANI GUPTA

'Comparative assessment of central health financing schemes and their impact', funded by World Health Organization (WHO), initiated on July 2016, likely date of completion June 2017.

This study aims to understand *three important schemes for health coverage in India* - the Central Government Health Scheme (CGHS), the Employees State Insurance Scheme (ESIS) and the Indian Railway Medical Services. The aim was to understand the coverage, financing and administrative set up of the schemes to explore the possibility of bringing these under a common umbrella as a step forward towards Universal Health Coverage.

✎ BRAJESH JHA

'Litchi Production Marketing and Processing in Bihar and India', funded by Ministry of Agriculture and Farmers Welfare, GoI, initiated on 2014, likely date of completion June 2017.

The growth in litchi production passes through three distinct phases after 1991-92, increasing from 1991-92 to 1997-98, subsequently decreasing till 2004-05. And after 2004-5 area under litchi has increased though productivity declined during the period. On the basis of trend in area and productivity, the litchi producing states in India can be presented in different kind of situation. Exports of litchi have also declined during the recent period. Litchi is a climate sensitive crop and a significant proportion of litchi (30 per cent) in orchard is perished due to biotic and abiotic stresses. The perishability of litchi thereafter depends on the kind of market channels and infrastructure related to crop. In the most widely used channel for marketing the share of producers in final price of litchi was around 25 per cent. Though producers share was high in litchi exported and processed, but only small proportion of litchi are exported and miniscule proportion (less than 3 per cent) of these are processed in the country.

Longitudinal Aging Study in India Survey'.

☞ SABYASACHI KAR

(with Kunal Sen and Amrita Roy) 'Low Income Traps and Institutions', self-initiated, April 2015, likely date of completion March 2018.

In this research, we show that rather than absolute convergence, income and institutional measures exhibit club-convergence, indicating the existence of low level traps in income and institutions. Next, we show that low level institutional traps are important determinants of income traps.

(with Kunal Sen, Saon Ray and Ajit Mishra) 'Determinants of Stalled Investment Projects in India: Economics or Politics?', self-initiated, April 2016, likely date of completion March 2018.

In the proposed study, we will examine the causes of stalling in projects in India, and disentangle governance related causes from market conditions. We will use a rich data-base of individual stalled and non-stalled projects (CapEx and Prowess data, from CMIE), and assess whether the determinants of firm-initiated stalling are different from politician-initiated stalling. We will ask to what extent the stalling of projects in India can be explained by strategic considerations as opposed to unforeseen contingencies, and whether political factors are more important than economic factors in explaining stalling.

(with Chandan Mohanty) 'Night Lights and Indian Growth Rates', self-initiated, April 2016, likely date of completion March 2018.

Night lights are increasingly being used as an important proxy for economic activities. We propose to study the usefulness of nightlights for Indian Growth analysis.

☞ ANITA KUMARI

(with Nilabja Ghosh, Amarnath Tripathi and M. Rajeshwor) 'Forecasting Agricultural Output using Space, Agro-meteorology and Land based Observations (FASAL)', funded by Ministry of Agriculture, date of initiation April 2006, likely date of completion March 2018.

The FASAL project provides econometric forecasts to the Ministry of Agriculture every year. These forecasts help the government to make estimates early in the season when information is scanty and for validating the Ministry's departmental field level estimates in order to strengthen the country's statistical system. Four forecasts, two (F0 and F1) each for Kharif and Rabi for major crops at the state level and projected at the all India level are provided. Database is being updated regularly and specification revised based on the suitability and diagnostics. Forecasts for 2016-17 submitted and for 2017-18 is in the process.

'Annual Productivity Index in Manufacturing Sector across Industries and States', funded by DIPP (Ministry of Commerce and Industry [Advisor Prof. B.N. Goldar]. Date of initiation July 2015, likely date of completion March, 2016.

The objective of the project has been: (1) to create Annual Total Factor Productivity Index for all industries at 2-digit of NIC, in manufacturing sector across major States and for all India, (2). Finding significant factors determining TFP across the industries for various states (3) Suggesting policy and other recommendations for improvement of TFP. Two training programmes were conducted. Two Interim Reports and a Final Report have been submitted. Various meetings and discussions w.r.t. to updating of data and methodology were held during the year.

PRC Delhi will visit quality monitoring of Delhi, Haryana, Rajasthan and Uttar Pradesh States NHM PIPs for the monthly report. In this context, the PRC Delhi team s will be visiting *North East Delhi and North West districts of Delhi*, Bhiwani, Jhajjar, Mahendragarh, *Mewat, Palwal, Panipat of Haryana*, Bikaner, *Bundi*, Churu, *Dhaulpur*, Hanumangarh, Jaipur, *Jalor*, Jhunjhunun, Nagaur, and Sikar districts of Rajasthan, Bagpat, Gautam Buddha Nagar, Ghazipur, Hapur, Muzaffarnagar, and Shahjahanpur districts of Uttar Pradesh States for review and analysis of suitable quality parameters. The study uses structured interview schedule to study the progress on the basis of key conditionality's and incentive and roadmap for priority action as suggested in the RoPs.

(with PRC Staff) 'Longitudinal Ageing Study in India (LASI)', funded by Ministry of Health and Family Welfare, GoI, date of initiation April 2017, likely date of completion March 2018.

Longitudinal Ageing study in India (LASI) has been introduced in lieu of the fact that population ageing is taking place in nearly all the countries of the world. LASI is a nationally representative survey of 60,250 older adults in age 45+ in India in all the states and union territories. LASI will be conducted every 2 years for the next 25 years. The main objective of LASI is to provide a comprehensive evidence base on health and wellbeing of elderly population in India. LASI will focus on demographics, household economic status, health and biomarkers, health insurance and health care utilization, family and social network, work and employment, and retirement. LASI will provide comprehensive evidence base for national and state level policy and programmes like Comprehensive National and state reports, summarizing the descriptive findings, Health: Disease Prevention and Control, Disability Control social Security and Ageing Policy framework, Policies for economic Challenges posed by ageing, internationally comparable scientific multidisciplinary data.

(with Manisha Bothra) 'Socio-Economic Differentials in Ageing and Dementia: A Reflection on the Challenges Ahead for India', funded by Ministry of Health and Family Welfare, GoI, date of initiation April 2017, likely date of completion December 2017.

India being the second most populous countries in the globe is expected to surpass China by 2022 (United Nations Report). The demographic structure of India is changing at a rapid pace with an increase the proportion of old age population (Subaiya, 2011). The elders are socially deprived and have little or no access to Social support, security and insurance. The present study aims to assess the changing demographic trends and analyze the constraints pertaining to the delivery of health care services in India. This study further reflects upon the importance of insurance and pension markets in ensuring economic independency to the elderly. This study would also highlight the importance of research and data on dementia, which is often ignored to be a serious ailment. The data sources include NSSO 71st Round, Census 2011, SRS etc. The study will be beneficial for the policymakers to identify the challenges that need to be addressed in the near future for delivering key health services.

'Reproductive Health Behavior of Tribes in Himachal Pradesh: Retrospects and Prospects', funded by Ministry of Health and Family Welfare, GoI, date of initiation June 2017, likely date of completion November 2017.

India is a country with diversity of cultures, traditions and ethnicity and tribal population are indispensable part of its long heritage. With modernization in health markets, there are some section of the society which is untouched by these developments. The prime objectives of this study include assessing the broad social status of women, identifying their sexual behaviour and family planning practices apart from studying their attitude toward their reproductive health and hygiene. The sampling design adopted for the present study is purposive stratified random sample. The study will be conducted in four tribal blocks of Himachal districts (Chamba, Lahaul,) with their identity as GADDI tribes and LAHAUL tribes and respondents would be chosen randomly. The study will be relevant and productive for the policymakers since it would highlight the health related anomalies in the tribal areas specifically in hilly terrain areas separated and lacking effective means of commutation and communication.

(with Niharika Tripathi) 'Gender Differentials in Economic Security and Function Health: Status among Elderly in India', funded by Ministry of Health and Family Welfare, GoI, date of initiation April 2017, likely date of completion February 2018.

India is rapidly experiencing ageing of population owing to improving life expectancy and dwindling fertility rates. Such remarkable demographic changes are accompanied by process of rapid urbanisation and changing living arrangements wherein institution of joint families are weathering away. The present study proposes to investigate the extent and pattern of economic security across selected demographic and socioeconomic characteristics stratified by gender dimensions in India. In addition, efforts shall be made to understand the association between economic security and functional health status among elderly. The proposed study shall exploit data on older adults (60 years and above) from the second round of Indian Human Development Survey (IHDS 2011–12). The proposed study using a gender lens intends to provide sound evidence base on the association between economic security and functional health status among older adult population in India. These findings shall be crucial to shed light upon strengthening the cause of economic and social security among the rising older population in India.

(with Niharika Tripathi) 'Prevalence and Risk Factors of Pregnancy Wastage among Women in India'. funded by Ministry of Health and Family Welfare, GoI, date of initiation April 2017, likely date of completion March 2018.

Despite global commitments to improve maternal and child survival, there exists paucity of regular scientific estimates related to pregnancy wastage, particularly in the developing countries. The present study proposes to examine the prevalence of pregnancy wastage (accounting for both miscarriage and spontaneous abortion rates) across selected demographic, socioeconomic and contextual factors among married women in India. In addition, theoretically pertinent risk factors associated with pregnancy wastage among married women in India shall also be investigated. The proposed study shall use the data on pregnancy wastage among women (15–49 years) from the second round of Indian Human Development Survey (IHDS 2011–12). The proposed study intends to provide scientific estimates, at both national and sub-national level, on the extent of pregnancy wastage among women in India. Such information shall be crucial for designing context-specific programmes and policies to address the issues of protecting vulnerable pregnant women from spontaneous abortions and miscarriages.

(with Niranjana Raut) 'Choice of Contraceptive Methods with a Special Focus on Non-Acceptance of Vasectomy', funded by Ministry of Health and Family Welfare, GoI, date of initiation April 2017, likely date of completion August 2017.

Female sterilisation is one of the most preferred methods of family planning in India while male sterilisation is the least accepted method. Over the years, a reduction in the prevalence of Vasectomy has been noticed. The prevalence of vasectomy reduced to 1.0 per cent in NFHS-3 from 3.5 in NFHS-1, which may be due to low acceptance or negative perception. Against this backdrop, the present study aims to examine the changing pattern of contraceptive practices in India. Apart from this, the study also intends to find out the knowledge and attitude towards various contraceptive practices especially

Vasectomy. The data sources for the present study will be the different rounds of National Family Health Survey (NFHS) as well as other available secondary sources. Apart from analysis from secondary sources, a primary study using interview schedules will be followed to identify the attitudes and the reasons of not accepting vasectomy. The study proposes to cover 250 respondents keeping in mind the time and resource constraints. Suitable statistical methods would be adopted for analytical purposes.

(with Anupama George) 'Role of ASHAs in Providing Newborn and Child Health Care Facilities: A Case Study of Uttarakhand, funded by Ministry of Health and Family Welfare, GoI, date of initiation April 2017, likely date of completion August 2017.

Community Health workers, commonly called ASHAs in India, have played an instrumental role in providing primary health care to the community and especially in ameliorating the status of maternal health in the country. This is quite evident from the increasing rates of institutional deliveries that have been possible due to the major role played by the ASHAs. However, when it comes to newborn health, India is lagging far behind; rather it is the highest contributor of neonatal deaths. In light of this, it is very important to understand the role of ASHAs as a link worker, bridging the gap between vulnerable newborns and health service centres. This study attempts to evaluate the knowledge of ASHAs with respect to Newborn Health according to ASHA Training module 6 and 7 and to check the effectiveness of Module 6 and 7 training in reducing neonatal morbidity and death. It will also attempt to understand the difficulties faced by the ASHA workers in providing health services to the newborns. Primary data will be collected through structured questionnaires and focused group discussions. The sample will include ASHAs, post-partum mothers and ANMs.

'Performance of National Food Security Act among Rural Households in the Backward Districts of Madhya Pradesh and Andhra Pradesh'.

Although the food grain production and procurement for PDS are sufficient for eliminating hunger from the country, Indian PDS has to undergo vast overhaul for ensuring food security among the poor and poorest of the poor living in the rural areas of the backward districts. National Food Security Act was notified on 10 September 2013. The Act provides for the coverage of up to 75 per cent of the rural population and 50 per cent of the urban population for distributing subsidised food grains under Targeted Public Distribution System. The eligible persons will be entitled to receive 5 kg of food grains per person per month at subsidized prices of 3/2/1 per kg for rice/wheat/coarse grains. The existing Antyodaya Anna Yojana (AAY) households, which constitute the poorest of the poor, will continue to receive 35 kg of foodgrains per household per month. The Central Government is thus providing highly subsidised food grains to about 80 crore beneficiaries in the country. The proposed study enquires the performance of National Food Security Act among the rural households in the backward districts of Madhya Pradesh and Andhra Pradesh States. Backward districts were identified by the Task Force of the Planning Commission in 2003 based on three parameters of agricultural wages, output per agricultural worker and the SC/ST population in the district. The study has been proposed to be conducted based on primary survey among the rural households in the States. Three backward districts from Madhya Pradesh and two districts from Andhra Pradesh have been selected for the survey. The selected districts are Satna (416), Dhar (409) and Seoni (294) in Madhya Pradesh. Chittoor (535) and Vizianagaram (380) are the districts for survey in Andhra Pradesh. The number of sample households in each district has been given in the respective parentheses. The sample size is determined based on the number of BPL households in each districts identified based on Socio Economic Caste Census survey. Thus, the study covers 2034 rural households and 60 fair price shops.

Organised a special panel on "Coastal Ecosystems" for the TROPMET 2016, international conference organised by Indian Meteorology Department (Bhubaneswar), Indian Institute of Technology (Bhubaneswar), Government of Odisha and Siksha O' Anusandhan University, Bhubaneswar during 18–21 December 2016 as a part of the Diamond Jubilee Year Celebration of the Indian Meteorological Society.

☞ OINDRILADE

Gave lectures to IES Probationers Training Programme.

Gave lectures to Indian Civil Accounts Service Officers (ICAS) probationers in the training programme from March 20–24, 2017.

☞ NILABJAGHOSH

Presentation on "Early Season Forecasting of Crops by FASAL Econometric Model" at international workshop "Operational Mapping/Monitoring of Agricultural Crops in South/Southeast Asian Countries – Research Needs and Priorities", May 2–4, New Delhi, India, held at G.G. Indraprastha University by NASA's South/Southeast Asia Research Initiative (SARI).

Panelist in Technical Session "Doubling Farmers' Income" (Invited) in National Workshop on 'INDIAN AGRICULTURAL OUTLOOK the 2017 Rabi Season and Doubling Farmers' Income' Organised by NCAER at India International Centre, New Delhi on 7 March 2017 (www.ncaer.org/event_details.php?EID=193)

"Early Season Forecasting of Crops by FASAL Econometric Model" Presented at Workshop with FASAL partners on "Quantitative Techniques for Estimation and Forecasting of Economic Indicators" organised by Institute of Economic Growth Delhi, 6 March 2017.

Presentation on "Early Season Forecasting of Crops by FASAL Econometric Model: Why and How" at National Workshop on 'Improvement of Agricultural Statistics' of Government of India on 4–5 January 2017, NASC, Pusa, New Delhi.

Concluding comments at International Seminar on Approaches and Methodologies for private food grain stock measurement from 9–11 November 2016 at New Delhi, as part of projects pertaining to strengthening the Agricultural Market Information System (AMIS) in India, organised by collaboration with the Food & Agriculture Organization (FAO) of the UN and Ministry of Agriculture & Farmers Welfare, Government of India.

Presentation on 'Early Season Crop Forecasting with FASAL Econometric model: Its usefulness beyond forecasting' in expert consultation "Approaches and Methodologies for Crop Monitoring and Production Forecasting" in Dhaka, Bangladesh on 25–26 May 2016 Jointly organised by Bangladesh Bureau of Statistics (BBS) and Food and Agriculture Organization of the United States (FAO–AMIS).

Lecture on "*Risk and Insurance*" at state level training of investigators for Longitudinal Ageing study in India (LASI), Phase-I for Delhi and Haryana in Institute of Economic Growth, New Delhi on 4 February 2017.

Lecture on "*Rethinking Agricultural work as Employment*" at orientation programme "Rural Livelihoods and Well-being" for research scholars 3–7 May 2016.

✧ INDRANI GUPTA

Non-Communicable Diseases in India: Impact and Financing. Presented at the meeting of the Lancet Commission on NCD, Kigali, September 2016.

Health Financing and Policy: Lecture delivered at the Indian Civil Accounts Service Training Programme 21 March 2017.

How to Make Health Coverage truly "Universal": Options for India. Invited lecture delivered at ADRI Silver Jubilee Celebrations 2016-17, Patna, 24 June 2016.

How to write and publish research papers in peer-reviewed social science journals. Lecture delivered at the course on "Social Science Research Methodology", ISID, 25 November 2016.

✧ BRAJESH JHA

Organised workshop on 'Climatic Stress, Structural Changes and Farm and Non-Farm Enterprise Uptake by farmers', IEG, 12 April 2016.

Organised meeting of Chinese delegation of Standing Committee members on Agriculture and Rural Committee of the People's Congress of Hubei province of China, IEG, 13 January 2017.

Presented a paper on 'Role of Non-farm Sector in Doubling Farmers Income' in the conference on Doubling Farmers Income Organised by NABARD at Jaipur on 21 October 2016.

✧ WILLIAM JOE

Presented a paper on 'Socioeconomic Status and Nutrition Transition in India', Population Association of America (PAA) 2016 Annual Meeting, Washington DC, March-April 2016.

Presented a paper on 'Economic Growth and Demographic Dividend in India', Population Association of America (PAA) 2016 Annual Meeting, Washington DC, March-April 2016.

✧ SABYASACHI KAR

Took classes on Club Convergence as a part of a capacity-building workshop organised by SANEM in February 2017 in Dhaka.

Presented paper on "Deals and Development: The Political Dynamics of Growth Episodes" at international conference on Managing Growth for Social Inclusion, organised by SANEM in Dhaka, 18–19 February 2017.

Presented paper on "The Stroll, The Trot and The Sprint of The Elephant: Understanding Indian Growth Episodes" at international conference on Managing Growth for Social Inclusion, organised by SANEM in Dhaka, 18-19 February 2017.

Participated in Panel Discussion on "Managing Growth for Social Inclusion in South Asia" at international conference on Managing Growth for Social Inclusion, organised by SANEM in Dhaka, 18-19 February 2017.

Made presentation on The Political Economy of India's Growth Episodes at joint workshop by IEG and University of Manchester on The Politics of Growth and Distribution in India on 22 March 2017.

ANITA KUMARI

Participated in Conference 'Climate Resilient Development in Himalayan and Downstream Regions' organised by Ministry of Agriculture and Farmers Welfare (MoA&FW), Government of India, International Centre for Integrated Mountain Development (ICIMOD) and Institute of Economic Growth (IEG) at India Habitat Centre, New Delhi, 16-17 June 2016.

Presented a paper on 'Sustainability of Agribusiness in India – A Glimpse of Policies and Programmes' in workshop on *Sustainability Assessment of Agribusiness Enterprises*, Bogor, Indonesia, 28 November—2 December 2016.

BASANTA K. PRADHAN

Resource Speaker at the '10th ASEAN - China Forum on Social Development and Poverty Reduction' held in Guilin City, Guangxi Zhuang Autonomous Region, China on 22-24 June 2016.

Presented a paper on 'Fiscal Scenario in Punjab: Past Trends, Future Prospects, and Challenges' at NITI Aayog, New Delhi, November 2016.

Presented a paper on the 'ODISHA Perspective Plan 2036-37, on 26 December 2016 at the P&C Department of Odisha Government in Bhubaneswar.

Admissions and Readmissions of Chronic Patients: Substitutes or Complements? Evidence from Nationwide Readmissions Database' was accepted for presentation at the 24th Meeting on Public Economics held in Toledo (Spain) on 26-27 January 2017.

'Climate change mitigation policies vs. productivity shocks in a dynamic CGE modeling framework for India', presented at the Workshop on Quantitative Techniques for Estimation and Forecasting of Economic Indicators, Institute of Economic Growth, Delhi, 6 March 2017.

C.S.C. SEKHAR

Talk on 'Food Inflation in India' for IES probationers, 1 May 2017, IEG.

Talk on 'Inflation in India with Special Focus on Food' for ICAS probationers on, 23 March 2017, IEG.

Lecture on 'Time Series Techniques' in the *Research Methodology Workshop on Econometric Techniques: Theory and Application*, Department of Economics, 25 February, 2017.

(with Yogesh Bhatt) 'Food inflation in India: Trends and Determinants', *Annual Conference on Growth and Development*, Indian Statistical Institute, 19-21 December, 2016.

'Inflation in Pulse Prices', IFPRI-NAAS-Tci *International Conference on Pulses for Sustainable Agriculture and Human Health*, New Delhi, 31 May- 1 June, 2016.

☞ SURESH SHARMA

Seminar on 'Investing in Teenage Girls' on the occasion of "World Population Day, Institute of Economic Growth, Delhi, 11 July 2016.

Presented report on Population and Sustainable Development at the International Conference on 'Population and Sustainable Development', Institute of Economic Growth, 7–9 December 2016.

Presented papers in the PRC Dissemination workshop during 22–23 September 2016.

(with Manisha Bothra) 'Health Expenditure and Its Repercussions on Health Status-An Analysis of South-Asian Countries'.

(with Ruby Alambusha Singh) 'Gender Disparities in Morbidities and Healthcare use among Older Adults or Elderly in India'.

(with William Joe, Aakshi Kalra and Abhishek) 'A Mixed-Method Study on Knowledge, Awareness and Practices regarding Tuberculosis: Insights from Community and RNTCP Personnel in Delhi and Muzaffarnagar'.

☞ PRAVAKAR SAHOO

Taught and coordinated Macroeconomics to Indian Economic Service Batch-XXXVIII, January to May 2017.

"Make in India for sustaining High Growth", Tokyo International University, Tokyo, 14 June 2017.

"FDI Reforms for Make in India", 13 June 2017, Saitama University.

"Services Exports of India and China: Convergence or Divergence", 23 December, Indian Econometrics Conference, NISER, BBSR.

"Making India an Attractive Investment Destination in the context of Make in India", MCTP - I for DS-level IFS Officers, Foreign Service Institute, Delhi, 27 October 2016.

'Mahatma Gandhi, B.R. Nanda, and the Historians: An Introductory Essay'.

☞ C.H. HANUMANTHA RAO

Abstract of my Memoirs

'A Journey from Marxism-Leninism to Nehruvian Socialism: from Vishal Andhra to Telangana' is a story of my changing perceptions on major socio-economic developments in the country since the mid-1940s, when I became an activist in the student movement in the old Hyderabad state. These changes in my outlook have been marked by serious introspections in the 1980s and 1990s, characterized by paradigm shifts in the former socialist countries. Globalization and economic reforms in India and the need to evolve a balanced approach to reforms by adequately addressing the problems of poverty, inequality and backwardness are also discussed.

FELLOWS, PhD SCHOLARS AND AFFILIATED SCHOLARS

ICSSR DOCTORAL FELLOWS

S. No.	Name of Fellow and Date of Registration	Title of Study	University/Supervisor	Supervisor/ Co-Supervisor at IEG

IEG DISTINGUISHED LECTURES, CONFERENCES WORKSHOPS AND SEMINARS

International Workshop of ICAS on Relating Gender: The Invocation of Culture (ICAS) held at IEG during 3–4 October 2016.

WORKSHOPS

Workshop on “Knowledge, Perceptions and Usage of Pesticides: Study among Cotton Farmers in Andhra Pradesh and Maharashtra”, organised by Thiagu Ranganathan, 5 April 2016 at IEG.

Workshop on “Climate Stress, Structural Change and Farm and Nonfarm Enterprise Uptake by Farmers”, organised by Thiagu Ranganathan, 12 April 2016 at IEG.

Workshop on “Fallow Lands”, organised by Thiagu Ranganathan, 22–23 July 2016 at IEG.

Workshop on “Indian Social Sciences and the Vernacular/s: Disciplinary Histories and the Politics of Knowledge”, organised by Veena Naregal, 9 February 2017.

Research Methodology Workshop on “Impact Evaluation of Issues Related to Climate Change and Agriculture”, organised by Saudamini Das, 6–10 February 2017.

Workshop on “Quantitative Techniques in Estimation and Forecasting of Economic Indicators”, organised by Nilabja Ghosh and Anita Kumari, 6 March 2017.

Workshop on “The Politics of Growth and Distribution in India”, organised by Sabyasachi Kar, 22 March 2017 at India International Centre (IIC).

Workshop on “Indian Social Sciences and the Vernacular/s: Disciplinary Histories and the politics of Knowledge”, organised by Dr. Veena Naregal, 9 February 2017.

CONFERENCES

Conference on “Climate Resilient Development in Himalayan and Downstream Regions” in collaboration with ICIMOD, organised by Nilabja Ghosh and Amarnath Tripathi, 16–17 June 2016 at India Habitat Centre.

Conference on “Population and Sustainable Development” in collaboration with IASP, organised by Suresh Chand Sharma, 7–9 December 2016 at IEG.

SEMINARS

Thiagu Ranganathan, Amarnath Tripathi, and Ghanshyam Pandey IEG, ‘Income Mobility among Social Groups in Indian Rural Households’, Chair by Manoj Panda (12 May 2016).

Alwein Keil, International Maize and Wheat Improvement Center, ‘Zero-tillage for Sustainable Wheat Intensification in the Eastern Indo-Gangetic Plains: Technology, Performance, Outscaling and Adoption’, Chair by Saudamini Das (8 July 2016).

Seminar on “Investing on Teenage Girls” by Suresh Chand Sharma on 11 July 2016 at IEG.

Amarnath Tripathi, IEG, 'Hybrid Crops, Income and Food Security of Smallholder Families: Empirical Evidence from Poor States of India', Chair by C.S.C. Sekhar (29 July 2016).

Thiagu Ranganathan, IEG, "Antibiotic Treatment for Short Term Morbidity in India", Chair by Indrani Gupta (9 September 2016).

Thiagu Ranganathan, Imdadul Haldar and Sarthak Gaurav, "Does Crop Insurance Affect Pesticide Use?", Chair by C.S.C. Sekhar (14 October 2016).

William Joe and Nandita Saikia, "Immigration in Assam during 1951-2011", Chair by Manoj Panda (16 December 2016).

Paul J. Thomassin, McGill University, "Watershed Policy and Pollution Abatement Costs", Chair by Manoj Panda (20 January 2017).

Katharina Michaelowa, University of Zurich, "Buying Support at the UNFCCC: The Strategic Use of Climate Aid", Chair by Purnamita Dasgupta (3 February 2017).

Brajesh Jha, "Evaluation of Market Intervention Scheme (MIS)", Chair by N. C. Rao (17 March 2017).

Andreas Pettenkofer, University of Erfurt, "How to Avoid Thinking about Inequality: Some Results from a case Study on the New 'Middle Class', Chair by Sanjay Srivastava (27 March 2017).

Mohan Kumar Bera, SRT Fellow, IEG, "Risk Perceptions and Actions to Reduce the Impacts of Floods in the Czech Republic", Chair by Saudamini Das (31 March 2017).

MEETINGS

Discussion on "Green Growth: Ideology, Political Economy and the Alternatives", by Amita Baviskar on 20 July 2016 at IEG.

Meeting of Nilabja Ghosh with ICIMOD on 21 July 2016 at 09.00 a.m. at IEG.

Mid Term Review of ICSSR Project on "Knowledge, Perception and Usage of Pesticide among Cotton Farmers in Maharashtra" on 27 January 2017 by Thiagu Ranganathan.

Meeting of IES Review/ Advisory Committee held on 4 February 2017, Dr. Nagesh Singh, Additional Secretary, Ministry of Rural Development Chair the meeting, Shri Sudhir Shyam, Director, Department of Financial Services, Prof. Manoj Panda, Director IEG and Prof. Vikram Dayal, IEG were the members of the meeting.

Review Meeting of Dynamic and Revival of Fallow Land from 16-17 February 2017 by Thiagu Ranganathan.

Advisory Meeting for ongoing ICSSR Project on Risk and Vulnerability Analysis of Rural Farm Households held on 27 February 2017 by Purnamita Dasgupta.

Panel Discussion on Kashmir: Conversations on Exile held on 10 March 2017, by Amita Baviskar.

Meeting on "Estimation of National Parameters for Project Appraisal in India being carried out for the NITI Aayog" held on 16 March 2017. (Study approved by NITI Ayog and conducted by IEG).

Workshop on “Quantitative Techniques in Estimation and Forecasting of Economic Indicators”, organised by Nilabja Ghosh and Anita Kumari, 6 March 2017.

Workshop on “The Politics of Growth and Distribution in India”, organised by Dr. Sabyasachi Kar, 22 March 2017 at India International Centre (IIC).

TRAINING PROGRAMMES

Training Programme on “Rural Livelihood and Well Being” from 3–7 May 2016 organised by Thiagu Ranganathan at IEG.

Main Training Programme of Longitudinal Ageing Study in India (LASI) from 31 January 2017 to 5 March 2017 by Suresh Sharma.

Training Programme of Indian Civil Accounts Service Officers (ICAS) from 20–24 March 2017 by N. Chandrasekhara Rao.

I N F R A S T R U C T U R E

LIBRARY

The Institute of Economic Growth (IEG) library was set up in 1958. The library comprises of two floor stack halls for its collection, a large spacious and ventilated reading hall with excellent furniture and bright lightening system, a microfiche room and a retreat room (study carrel) for faculty and scholars at stack hall, 1st floor that collectively support the teaching, research and extension programmes of the Institute. The library has a sound collection of Reference Materials, Books and Monographs, Conference Papers, Working Papers, Discussion Papers, Serials, Magazines and Periodicals, Audio-Video Materials and e-databases.

(1) Services:

- Database Search Services – OPAC
- Bar-Coded Circulation Services
- Electronic Database Search Services – E-Databases
- Current Contents of Journals (Weekly) Alert Services
- Current Awareness Services/ New Arrivals (Weekly)
- Selective Dissemination of Information (SDI) Services
- Reprographic/Xeroxing Services
- Inter-Library Loan (ILL) Services
- DELNET Services

(2) Digitisation/Software Services: The IEG Library has been upgraded and fully computerised its all in-house operations using the LibSys7 software package that also provides web-based access to the online catalogue of Library. The OPAC of the Library can be accessed on Intranet to search all the bibliographic records (by author, title subjects, keywords and publisher etc) available in the database with window client of the LibSys.

The IEG Library has also been hosting the DSpace digital repository for its users, allowing them to its digital contents within the campus of IEG 24X7 on Intranet to search all the records. The digital repository contains the publications of IEG faculty members and scholars published in journals, magazines, newspapers, book reviews, photographs, annual reports of the IEG, working papers & discussion papers of IEG, seminar and conference papers of IES Probationary Officers and others.

- (3) Collections of books, back volumes of Journals/Periodicals etc: The IEG Library is enriched with a total collection of 146680 (till 31 March 2017) accessioned documents (*i.e.* books, serials, magazines, journals, theses, annual reports, micro-documents, seminar papers, statistical reports etc.) and 1376 (till 31 March 2017) accessioned digital audio-video materials. IEG is a depository institution for the publications of the World Bank and International Monetary Fund (IMF). The IEG Library also received all regular publications and serials (including data sources) of the GoI and its subsidiary organizations. The database of resources available in the Library is being updated on day-to-day basis with details of recently acquired resources.

The IEG Library has a collection of approx. 1500 titles of national and international scholarly periodicals and approx. 4000 bound back volumes of journals.

- (4) Subscription of Journals (National and International): Presently, IEG Library is receiving 219 titles of periodicals (National and International) on subscription/gratis and exchange basis.

In addition to hard copy of the journals, IEG Library is houses with the facility of access to online e-resources *i.e.* ScienceDirect, Indiastat.com, JSTOR, EPWRF Database, Prowess Database along with entire set of DULS Database *via* (<http://crl.du.ac.in/sub.database/SUBS.E-RESOURCE.htm>), and World Bank online. The basic data are now mostly available in soft version.

- (5) New Additions: During the period (1 April 2016—31 March 2017), IEG Library has made following new additions to enrich its collection:

- Books etc.–776
- Periodicals–219 Titles (Latest Issues)
- Audio-Video Materials–46 CD-ROMs

COMPUTER UNIT

IEG's computer unit caters to about 170 users, including faculty members, supporting research staff, members of the administration, doctoral students, IES probationary officers and affiliated visitors. We have a large local area network (LAN) serviced by the HP BL460c G7 blade server. The IEG also acquired a high-speed fiber link of NKN (National Knowledge Network) over the University of Delhi's LAN system. It is also being used to access 100+ e-resources (journals, online databases etc). The IEG's offices, Hostel and the staff quarters are interconnected with each other using wire and unified Wi-Fi systems. CCTV camera systems were fixed for security on the camous and a biometric attendance system was installed for effective supervision of personnel.

Faculty members and senior administrative staff are provided with PCs in their offices, connected with individual duplex/MFP laser printers. They are also provided laptops. Heavy-duty printing services are deployed in the computer unit, library and the accounts section of the Institute. Modern systems such as Digital Podium is also deployed to facilitate training programmes. IEG's software library has advanced application and econometric packages which cover MS Office, Adobe Acrobat Eviews 9.1, Limdep 7.0, Stata 14.0, Stella 5.0, Vensim 5.5 (DSS), GAMS 2.5, MFIT 5.0, MLwin, RATS 6.0, ArcGIS 10.1etc. Network and online database such as Ace Equity, Prowess are also available.

The feature-rich IEG's website uses CMS which allows the faculty, research units and administration to easily update their information. It also incorporates an on-line job portal, events manager and off-campus faculty login. The Audio/Video Room of the Institute is equipped with VHF audio conferencing and can be used for web conferencing, live interviews, live presentations and demo programmes.

The IEG is also recognised for its growing presence on social networking sites including Twitter, YouTube and Facebook. We have registered nearly 1000+ followers on these accounts and 10,000+ connects on YouTube. Web-analytics reveal that Institute events have been watched on YouTube in 36+ countries across the world.

OFFICERS' HOSTEL

The IEG Officers' Hostel caters primarily to the needs of participants of various training courses and orientation programmes conducted by the Institute, such as probationers and serving officers of the Indian Economic Service, the Indian Audit and Accounts Service, and several others involving national and international institutions or donor agencies.

Depending on availability, IEG's project research staff, doctoral students, affiliated visitors, IEG and Delhi University faculty, IES alumni and guests can also stay in the hostel for limited periods.

The hostel is governed by a management committee chaired by the IEG director and convened by the warden, who is usually a senior professor of the Institute and responsible for the hostel's smooth functioning.

Professor C.S.C. Sekhar is currently the Warden of the IEG Officers' Hostel.

IEG Officers' Hostel

NON-ACADEMIC ACTIVITIES

Tree Plantation on the occasion of Dr. V.K.R.V. Rao's Birth Anniversary July 2016.

Scholarship and Book Grant (2016)
